Objective

Senior Developer With 7+ years of experience in modernizing legacy systems and building end-to-end applications. Expert in PHP/Laravel, with strong hands-on exposure to Node.js developing REST APIs, microservice architectures, and cloud-native deployments using AWS.

Skills

- Backend Skill : Laravel , CodeIgniter ,Node.js (Express.js),REST APIs.
- Database : MYSQL.
- Cloud Hosting services (AWS) : Ec2,IAM.
- Version Controll : GitHub, Git.
- Server : Laravel Forge, C-Panel, Direct Admin, Hpanel, Winscp, filezilla
- Front End : JavaScript,Jquery ,Ajax,Bootstrap,Html,css,React.js
- Server Mangment : Docker , Linux.
- Project Management : Jira
- Leadership & Management: Team Leadership & Mentorship Project Planning.
- API & Security : Rest APIs,Scantum,Rate Limiting .

Experience

- **Datagrid solutions pvt ltd (Tech Lead)** 9/06/2025 - Present
 - Led a team of 5 engineers, delivering enterprise dashboards with 30% faster load times.
 - Designed and integrated 10+ third-party APIs, improving system interoperability.
 - Implemented secure email & SMS workflows, enhancing communication reliability.
- **Weblytics India Solution | Kavya Infoweb Private Limited (Senior Software Engineer)** 11/10/2020 - 20/11/2024
 - Developed and maintained enterprise web applications using Laravel 8+, PHP, and MySQL.
 - Implemented secure REST APIs for data exchange with third-party systems .
 - Designed admin dashboards with role-based access and real-time reporting.
 - Integrated email (Mailtrap) and SMS (Nexmo) services for user notifications.
 - Collaborated with cross-functional teams to deliver scalable modules under tight deadlines.
- **Webgurukul | Webakruti (Web developer)** 15/05/2018 - 11/08/2020
 - Built core modules in Laravel 7 and CodeIgniter for multiple client projects.
 - Created authentication and role management systems with Laravel middleware.
 - Designed inventory & order management workflows for e-commerce platforms.

Education

- **Nagpur institute of technology, Nagpur.** 2015 - 2018
BE (Electrical)
- **Shri K . R . Pandav Polytechnic** 2011-2015
Diploma in Electrical Engineer

Projects

- **SimplHRM – Cloud-Based HR Management System**

Tech Stack: Laravel, MySQL, Node.js , Docker, AWS

Live Url : <https://simplhrm.com/>

Project Overview :- SimplHRM is a lightweight HRM platform to manage employees, leaves, attendance, and payroll, streamlining HR operations with secure workflows and reporting.

Key Contribution :

- Implemented scalable leave & attendance workflows, improving HR efficiency and reducing delays.
- Led AWS Docker CI/CD deployment, achieving 99.9% uptime with zero-downtime releases.
- Built employee engagement features (awards & recognition), mentoring juniors and cutting HR workload by ~40%.

- **Unify AMS**

Tech Stack : Laravel ,MySQL,Docker ,Aws

Live Url : <https://msqa.unifyams.ai/login>.

Project Overview : Community platform for Shree Jain Shwetambar Terapanthi Sabha (Mumbai) to manage members, events, and donations with centralized operations.

Key Contributions:

- Built member registration, event scheduling, and donation management modules with secure workflows and transparent reporting.
- Developed admin dashboards for user, notices, and activity management, improving operational efficiency.
- Deployed via Docker on AWS EC2 with CI/CD, optimizing queries for scalability, reliability, and performance.

- **School Accreditation Portal**

Tech Stack :- Express.js,React.js,MySql,Aws .

Live Url : <https://webapp.haryanaschoolaccreditation.in/>

Project Overview :- Accreditation platform for Haryana schools enabling secure self-evaluation, data submission, and admin dashboards for real-time monitoring.

Key Contributions:-

- Designed role-based workflows for school accreditation and approvals.
- Built admin dashboards for user management and real-time tracking.
- Deployed application using Docker on AWS EC2 for scalability and smooth releases.

- **School Management & Monitoring System**

Tech Stack: CodeIgniter, PHP, MySQL, HTML, JavaScript.ApexChart.

Live Url :- <https://bmceducation.in/>

Project Overview: Web-based school management platform used for monitoring and reporting educational data across zones and wards. The system supports multiple user roles like EO, Superintendent, AO, and BO for managing schools and district-level reports.

Key Contributions:

- Developed and maintained modules for Schools, DMC, EO, Superintendent, AO, and BO.
- Implemented ApexCharts dashboards to visualize school and ward-level reports.
- Assisted with query optimization, bug fixes, and data validation to improve system performance.

- **College Management System**

Tech Stack: CodeIgniter, PHP, MySQL, HTML, CSS, JavaScript, jQuery, AJAX.

Live Url : <https://cms.pspl.world/>

Project Overview: Worked on a web application designed to manage college activities, student records, and academic workflows across multiple roles including Admin, Faculty, HOD, and Principal.

Key Contributions:

- Developed and maintained modules such as Super Admin, Student, HOD, Faculty, and Alumni.
- Implemented CRUD operations for Batch, Subject, Timetable, and Class In-Charge modules.
- Contributed to management features like Leave, Task, Meeting, Mentor Assign, Complaints, and Progression handling.

- **LMS – Employee Training & Development Portal**

Tech Stack : Laravel ,Node.js,MySQL,Aws ,Docker.

Project Overview: Developed a scalable Learning Management System (LMS) for employee training and development, enabling secure course management, learner tracking, real-time communication, and automated reporting to improve organizational efficiency.

Key Contributions:

- Architected and delivered scalable LMS modules with secure workflows and optimized performance.
- Led deployment & DevOps strategy, achieving 99.9% uptime and seamless scalability through CI/CD and containerization.
- Built real-time communication features (chat & notifications) and mentored juniors, improving collaboration and delivery speed.

- **ECTI**

Tech Stack: WordPress , PHP, MySQL

Live Url : <https://ecti.co.in>

Project Overview: Created a basic corporate website for ECTI using WordPress CMS to manage pages like Services, Courses, and Contact. Focused on easy content updates and smooth website performance.

Key Contributions:

- Installed and configured WordPress with essential plugins for content and SEO.
- Added and customized pages such as Home, About, Services, and Contact.
- Managed menus, media, and basic settings through the WordPress admin panel.
- Ensured the website runs smoothly and loads quickly for live use.

Languages

- Marathi, Hindi , English.

Personal Details

- Date of Birth : 20/03/1995
